Promotion of Non-Conventional source of Energy in Delhi, U.P. and Bihar

4624. MAULANA OBAIDULLAH KHAN AZMI: Will the Minister of POWER AND NON-CONVENTIONAL ENERGY SOURCES be pleased to state:

(a) what are the details of the steps taken to promote non-conventional sources of energy, particularly, in Delhi, Uttar Pradesh and Bihar;

(b) what is the total amount of expenditure incurred thereon during the last three years; and

(c) whether the success achieved in this regard is considered satisfactory by Government?

THE MINISTER OF STATE OF THE MINISTRY OF POWER AND NON-CONVENTIONAL ENERGY SOURCES (SHRI KALP NATH RAI): (a) and (b) The Government is encouraging development, production and wider use of new and renewable energy sources for various types of centralised as well as decentralised applications. Research development, demonstration and dissemination activities are undertaken. Country-wide infrastructure for the manufacture, installation and maintenance of various systems and devices has been developed. For harnessing and use of renewable energy systems and devices, incentives; such as, subsidy soft term loans, and fiscal incentives in the form of depreciation allowance and relief in sales tax, excise duty and customs duty are provided to the Users and manufacturers. In addition, publicity and awareness compaign are also being undertaken.

Status of achievement in respect of various new and renewable sources of energy systems and devices for Delhi, Uttar Pradesh and Bihar is given in Statement-I (*see* below). Total funds released in last three years by the Department of Non-Conventional Energy Sources for various programmes is given in Statement-II (*see* below).

(c) In view of level of financial support provided to the sector of non-conventional energy sources, widely dispersed nature of energy resources and installations, high dependency on all types of users in rural, remote semi-urban

and urban areas and during the short span of development and popularising these technologies, the success achieved is considered satisfactory.
